Dear Licensee:

Review of the above-referenced renewal application indicates that it is deficient in the manner described below:

the information provided concerning RF radiation is insufficient (see enclosed clarification).

Processing of the application cannot be completed until the noted deficiency has been corrected. Accordingly, please submit the required information, in duplicate, to Room 302 of the Commission, attention Ricardo M. Durham. If you have any questions concerning the above, please contact Mr. Durham at (202) 632-6485.

Dear Mr. Dunham:

Please accept this information in reply to your letter concerning question seven (7) section D, of FCC form 303-S and the incomplete radio-frequency radiation information.

The KWHK AM transmitter site is located at 103 West 43rd Street, Hutchinson Kansas, on approximately nine (9) acres in a low marshy area. The transmitter itself is located in a metal building approximately 250 feet from the center tower. Access to this building is restricted to radio station management and engineering personnel and is kept locked at all times. All three tower buildings (containing the phasor arrays) located at the base of each tower along with the fences that surround the antennas are also kept locked and warning signs are posted at the site.

There is no other transmitting equipment transmitting from this location.

Within the .68 kilometer blanketing area, there are no businesses and only one residence. The area consists of mostly marsh area and some pasture occasionally used for feeding livestock. The human exposure to radio-frequency radiation is well below maximum, worse case level of 1.0 mw/cm squared outlined in the OST Bullentin #65 issued in November of 1985.

The transmitter is remotely controlled from the studio, no station personnel are present at the site and procedures have been established to limit the exposure to workers who must service the transmitter and structures.

### Question-by-Question Guidelines (FCC Form 303-S)

1. The name of the applicant should be stated exactly as it appears on the station's existing license. The current street address or post office box used by the applicant for receipt of Commission correspondence should be set forth.
2. Every station with five or more full-time employees must file an employment report on or before May 31 of each year. That report is to be available locally for public inspection.  
A current and complete ownership report should be submitted with the licensee's renewal application and the question answered affirmatively. However, if the ownership report submitted with a station's last renewal application is "up-to-date" and has not been amended, a new report need not be filed with the current renewal application. The applicant should answer the question negatively and should supply the call letters of the station and the filing date of the renewal application with which the ownership report was submitted. An "up-to-date" ownership report is one that is current for each question on that report.
3. Aliens, foreign governments and corporations, and corporations of which any officer or director is an alien or of which less than 80% of the capital stock is owned or voted by U.S. citizens, are prohibited from holding a broadcast station license. Where a corporate licensee is directly or indirectly controlled by another corporation, of which any officer or more than 25% of the directors are aliens or of which less than 75% of that corporation's stock is owned or voted by U.S. citizens, the Commission must consider whether denial of renewal would serve the public interest. Licensees are expected to employ reasonable, good faith methods to ensure the accuracy and completeness of their citizenship representations.
4. This question is limited to adverse actions and judgments adjudicated or entered into within the preceding license term. Reportable activities consist of judgments or decrees, including settlement, consent, and like agreements, where the misconduct occurred either in the operation of the station for which renewal is requested or in the conduct of the other broadcast and non-broadcast activities of the renewal applicant and parties to that application, such as all partners and all corporate officers, directors, and stockholders with a 10% or more ownership interest in the applicant.
5. A licensee must maintain certain documents pertaining to its station in a file which should be kept at the station's main studio or other accessible place in the community of license. The file must be available for inspection by anyone during regular business hours. The documents to be maintained include applications for a construction permit and for license renewal, assignment or transfer of control; ownership and employment reports; and annual lists of local problems and responsive programming broadcast in the preceding twelve months. A complete listing of the required documents and their mandatory retention periods is set forth in Rules 73.3526 and 73.3527.
